Introducing our Endless Advantage Exclusive 2-Wire Wall Controls

Designed for Builders.
Preferred by Electricians.
Appreciated by Homeowners.

Why Choose Our 2-Wire Wall Controls?

- Works with existing U.S. residential wiring
- No additional control wire required
- Factory pre-paired for immediate use, faster installation and reduced labor costs
- Direct-wired communication eliminates RF and Wi-Fi interference
- Controls only the intended highly efficient compatible DC motor ceiling fans(up to 5 fans with no light) with no cross talk
- No batteries to replace - Maintenance-free operation
- Delivers full functionality of highly efficient DC Motor fans with low voltage, high output LED light kits.
- Ideal for single-family, remodel, multifamily & hospitality projects

One Control. Two Wires.
Endless Advantages.

Built for Today's Construction Environment

Simple Installation with Existing Wiring

The 2-Wire Wall Control is fully compatible with standard residential wiring used throughout the United States. Because it operates on the existing two-wire configuration, there is no need for additional control wires, specialized rough-in requirements, or costly electrical modifications.

Benefits for Builders & Contractors

- No third wire required
- Compatible with existing residential wiring practices
- Simplifies planning and installation
- Reduces labor time and material costs
- Controls up to 3 identical fans with light kit or 5 fans without a light kit in a series - ideal for large rooms
- Ideal for single-family, remodel, multifamily, & hospitality projects

Install. Power On. Done.

TSDC-Wall Features:
- Timer 2/4/8 Hours
- Fan On/Off, Speed, Reverse, & Breeze(Slowly Cycles through Speeds)
- Light On/Off, Dimming, & Adjustable Color Temperature CCT

TSDC-Wall Included With These Fans:
- Charming 52" & 62" CHMX2XX3
- DeMarco 52" DMC52XX4
- Frye 52" FRY52XX5
- McCoy 60" MCY60XX4
- Phoebe 52" PHB52XX3
- Rosalie 52" RSL52XX5

DC-Wall2 Features:
- Fan On/Off, Speed, Reverse
- Light On/Off, Hold for Dimming

DC-Wall2 Included With These Fans:
- Fonz 65" FON65XX5
- Frazier 56" FRZ56XX3
- Getaway 52" GTY52XX5
- Venn 58" VNN58XX4

CRDC-Wall Features:
- Timer 2/4/8 Hours
- Fan On/Off, Speed, & Reverse
- Light On/Off, Hold For Dimming

CRDC-Wall Included With These Fans:
- Amigo 52" AMG52XX3
- Rafiki 52" RFK52XX3

Factory Pre-Paired for Instant Operation

Every wall control arrives factory paired to its designated ceiling fan receiver, eliminating the time-consuming setup and programming typically associated with wireless controls.

Advantages

- Faster installation process
- No field pairing required
- No third wire required in a single gang box
- Reduced call-backs and troubleshooting
- Consistent, reliable operation from day one

Reliable Room-by-Room Control

Direct-Wired Communication

Unlike Wi-Fi or RF-based controls that can experience signal interference, cross talk, or unintended operation of nearby fans, our direct-wired technology communicates only with its designated ceiling fan.

The Result

- Precise fan control
- No interference from neighboring units
- No accidental operation of adjacent fans
- Ideal for apartments, condominiums, townhouses, and production housing

Maintenance-Free Performance

No Batteries. No Replacement Schedule.

Because the control is powered directly through the home's electrical system, there are no batteries to replace and no ongoing maintenance requirements.

Long-Term Benefits

- Enhanced homeowner satisfaction
- Reduced service calls
- No battery failures
- Reliable operation year after year
